

Waste Water Management in Vietnam

Welcome...

...to all participants of the training courses and workshops in Vietnam 2015/16. This platform is dedicated for you to get into contact with each other, with the course administration at GIZ, with the face-to-face trainer and with the online moderators.

The participants have now completed **ToT1 ([index.php?id=3162](#))** (moderated by Dirk Hangstein), **ToT2 ([index.php?id=3180](#))** (moderated by Ms. Alexandra Pres), **ToT3 ([index.php?id=3199](#))** (moderated by Hans Hartung), and **ToT4 ([index.php?id=3222](#))** (moderated by Hans Hartung and Mostafa Biad). We are sure that you took some benefit from the trainings and that your perspective is broadened now.

After ToT3, the trainees entered the phase of practical implementation of what they have learned during ToT1-3: Divided into four groups and based on the existing GIZ/WMP manuals (written by GFA), they implemented with great success training courses in Vietnam during March until July 2016. Trainees reported about their experiences and about the courses at ToT4 (1.-5. August 2016).

Between ToT 3 and 4, three additional manuals on Financing Aspects of the waste water in Vietnam have been drafted. These manuals have been introduced to the participants during **ToT4 ([index.php?id=3222](#))** and finalized for the Vietnamese needs during **Workshop 1** ([index.php?id=3455](#)) (in September 2016) and 2 (in November 2016)!

What can you do here?

This platform is the centre of all your activities before, during and after a training session.

Inform yourself about the past trainings and workshops ToT1-4. Especially, you should proceed to «Training-of-Trainers 4» (<index.php?id=3222>) to get an overview and download the most recent handouts. The ToT sections (incl. ToT4) also offer all photos of the flip charts produced during the sessions.
